YOUR SHIELD FROM THE ELEMENTS

The look of real slate at the price of premium asphalt shingles. EuroLite Slate is a value-conscious alternative to our popular EuroSlate. Comprised of the same high quality materials and attention to detail, our NEW EuroLite Slate handles and installs like an asphalt shingle but due to unique features and design, it can be installed in less time.

EuroLite Slate, like all the other products in the Euroshield™ line, contains a minimum of 75% recycled content. Durable, long-lasting and beautiful to look at, EuroLite Slate provides the best roofing value available today.
